3.1. Employer's general feedback, comments for ELTE Faculty of Informatics (optional):

3.2. Short evaluation of the internship, summary **from the student** (in at least 4 sentences):

During my internship, I encountered individuals from diverse professional backgrounds, providing me with valuable insights. I worked on an engaging project that exposed me to new technologies and concepts, all within a supportive environment conducive to my growth. Applying knowledge gained from my university studies directly to my tasks at the job further enriched my experience during the internship. My manager's

contribution to my growth was invaluable, as his guidance and support were fundamental in shaping my professional development. In every challenge I faced, his mentorship provided me with the confidence and skills needed to overcome obstacles and thrive in my role. The company culture was vibrant and inclusive, fostering an atmosphere of collaboration and mutual respect. This experience not only helped me grow as a professional but also socially, providing opportunities for networking and personal development. My time here has been immensely rewarding, and I am grateful for the opportunity to learn and develop in such a supportive environment.

3.3. Short evaluation of the internship, summary from the employing organization:

Kairat has successfully completed his internship in the Analytical Engineering team at MSCI. His project was to develop a tool for approximating complex pricing functions by neural networks. When he started, he had a good general understanding of algorithms and software design, but did not have much experience in neural networks. However, he quickly learned and was able to successfully develop a demonstration software which interactively approximates multi-dimensional nonlinear functions using the Tensorflow framework of neural networks. In summary, Kairat's internship was successful and fully served its purpose.

4. Statement

In the name of the employing organization I certify that Alkozhoev Kairat has completed his/her internship in our organization at the expected level and quality.

5. Submission of the Reference Letter
